

## We've reached 10,000 members!

In February the Credit Union officially reached a significant milestone of 10,000 members. Not only did we reach 10,000 members we also held the #1 ranking spot for Credit Unions in our peer group for two straight years when measuring member value! Member value measures how effectively the Credit Union operates for the benefit of our members or more specifically the return to the members. We are humbled to have reached such significant achievements and thank you for your continued support!
